

WORKER'S COMPENSATION CLAIM INSTRUCTIONS

- You are required by law to report any work related injury or illness immediately. In some states you are not required to report claims where the employee does not lose time off from work and has no less than two trips to the doctor.
- Most insurers' today request that you report workers compensation claims directly to the insurer by phone. Your WC policy should have clearly marked phone numbers to call in claims through an 800 number. Have your policy number available.
- If you cannot locate the phone number to report a WC claim, or cannot locate your policy number, please contact your claims representative, below.
