## ONLINE SAFETY & RISK MANAGEMENT COURSE

to help

# REDUCE ACCIDENTS THIS SUMMER

by: **Evan Heltay**  
Co-Founder & COO  
[ExpertOnlineTraining.com](http://ExpertOnlineTraining.com)

**Quick!** Name one simple thing that a busy director can do, even before the 2016 staff orientation, to reduce accidents this summer? If you said **Expert Online Training**, you're on the right track. If you said, *"I want a safety course that my staff can complete in under 2 hours at half the normal price," then you WIN!*

Sobel Affiliates and Expert Online Training are proud to announce their partnership of a spring educational initiative aimed at reducing accidents and boosting physical and emotional safety. The course is called **Safe Summer 2016** and the partnership includes a never before offered 50% discount from the traditional rate. For just \$199 for the director dashboard and \$7 per staff member, here's how it works:

(1) Contact Expert Online Training, toll-free (877) 237-3931 and mention the promotional code "Sobel". Then one of Expert Online Training's customer coaches will quickly get you set up. Already a subscriber? That's great! Contact EOT anyway and they'll be sure that the course is included in your subscription.

(2) You contact your staff, right through the EOT portal, and let them know they are enrolled in a **2-hour online safety and risk management course**. We've drafted a stock letter for you, to save time, but you can edit it however you'd like.

That's it! From your admin screen on EOT (called the "Director's Dashboard"), you can monitor your staff's progress and print out their completed syllabi for accreditation purposes.

**SAFE SUMMER 2016** includes these seven video training modules:

- 15 Passenger Van Safety: Professional Driving for Youth Leaders
- Kickin' Kitchens: Hygiene and Safety Fundamentals
- Active Lifeguarding: Preparation, Scanning and Practice
- Lifeguarding Skills Verification: Ensuring Proficiency Beyond Certification
- Safe Touch and Safe Talk: Protecting Your Campers and Yourself

- Alcohol Beverage Laws: Think Before You Drink
- Anaphylactic Emergencies: First Aid for Severe Allergies

I urge you to take 10 minutes right now and enroll your staff in this fantastic course. **You must call (516) 880-9250 by June 15th to take advantage of this one-time offer.** By using Expert Online Training, each of your youth leaders will acquire a professional mindset and a valuable set of risk management skills.
