

The Camp Newsletter

March, 2021

25% DISCOUNT FOR ONLINE STAFF TRAINING WITH EXPERT ONLINE TRAINING (EOT)

Over the past several years we've encouraged our clients to invest in staff performance and safety through an educational partnership with Expert Online Training (EOT). Staff training is of course a critical part of running a safe camp and each year more and more staffers look to do as much as they can online. While online training will not replace in person orientation, it does allow you to assign specific tailored courses to your staff to complete before they even come to camp so when they arrive they already have some training and will certainly have a good sense of what is expected of them.

This summer, staff preparation may be more important than ever before. With that in mind, we've secured a special **25% discount** on Expert Online Training on behalf of our clients.

Through EOT you can initiate your staff training remotely with professional videos and interactive comprehension quizzes created by some of the most respected educators in the camping world. You can easily track user participation and completion, and even post your own training material to the platform.

In addition, camp administrators and staff receive customer service support from a committed team of tech and camp professionals.

A well-trained staff helps ensure safety and success. And a course completion certificate you receive after each course is completed may be a useful tool in defending any possible future litigation. Let us help you make the 2021 summer season safe, healthy, and with a well-trained staff.
